SUBJECT INDEX, VOLUME 58

Adrenal cortex
response to dietary salt restriction and replacement, 57
effect of hypophyseal portal vessel blood plasma and plasma fractions on adrenal ascorbic acid, 62, 359
cytological changes induced by ACTH and altered Na/K ratio in hypophysectomized rats, 163
corticosteroid levels in adrenal vein of non-stressed dog exposed to cold, 309
action on bone marrow esterase, 352
diurnal variation in blood leucocytes in normal and adrenalectomized mice, 365
comparison of a radioactive isotope technique with others in bioassay of mineralocorticoids, 390
survival of adrenalectomized mice after stress and administration of steroids, 412
influence on dipeptidase activity of surviving rat diaphragm, 453
action on release of N^{15} from tissue proteins of rats previously fed N^{15} glycine, 484
preferential catabolism of recently synthesized protein during starvation, 493
evidence that epinephrine stimulates glomerular zone causing eosinopenia in hypophysectomized rats, 550
hormones on histological distribution of potassium in monkey and guinea pig adrenal, 582
hormones on histochemical distribution of sulfatase and acetylcholinesterase in rat adrenal, 573
phosphorus metabolism of cortex during cold stress, 587
concerning function of fetal zone in human, 598
steroids in human fetal adrenal glands, 626
plasma 17-hydroxycorticosteroids in adrenalectomized and hypophysectomized guinea pigs, 651
non-effect of ascorbic acid pretreatment on response of, 671
control of sodium flux across frog skin, 674
structure of human adrenal cortex, 714
importance of nephrosclerotic action of hypophyseal preparations, 739
influence of steroids on reticulocyte protein synthesis, 748
role in promoting bleeding in hypophysectomized baboons, 753
Adrenal medulla
effect on muscle glycogen in normal and hypophysectomized rats, 158
Aldosterone
effect of corticosteroids on secretion of, 104
regulation of the secretion of aldosterone-like material, 255
conversion of steroids to aldosterone-like material, 708
Amphenone
inhibition of adrenal corticosteroid output in hypophysectomized dog, 802
Androgens
castration and growth of muscles in rats, 226
effect on iodine metabolism, 279
effect of castration on weight and composition of the muscles of the guinea pig, 315
action on selective uptake of Zn^{65} by dorsal prostate in rat, 443
myotrophic and androgenic effects of 17-ethyl-19-nortestosterone and related compounds, 567
influence on *in vitro* incorporation of glycine-1-C^{14} into reticulocyte protein, 748
androgenic and myotrophic properties of 9-fluoro-11-oxymethyltestosterones, 781

Chorionic gonadotropin
effect on the 3β-OL dehydrogenase activity of testes and adrenals, 435
Corticotropin
effect on blood sugar in obese hyperglycemic mice, 1
effect of pantothenic acid deficiency on

insulin sensitivity and response to ACTH of intact and diabetic rats, 427
evidence for separate hypothalamic center controlling pituitary secretion of, 665
influence of oxycel corticotropin on fatty acid and glucose metabolism in rats, 808
Cortisone
effect on blood sugar in obese mice, 1
effect on liver glucose-6-phosphatase, 40
action on insulin sensitivity in rats, 193

Epinephrine
effect on blood sugar in normal and obese mice, 220
action on glomerular zone of hypophysectomized rat adrenal in relation to induced eosinopenia, 550
Estrogens
an *in vitro* assay of estradiol-17β and estrone, 150
effect on thyroid uptake of I^{131} in rats, 327
effect of diethylstilbestrol on lipids in cockerels, 338
interconversion of estrone and estradiol in the perfused human placenta, 376
action on lactic dehydrogenase-DPNH Oxidase System of Rat Uterus, 512
effect of diethylstilbestrol-induced tumorigenesis on the secretory activity of the rat anterior pituitary gland, 686
glycine-1-C^{14} into reticulocyte protein, 748
Estrus
effect on thyroid uptake of I^{131} in rats, 327

Glucagon
effect on blood sugar in normal and obese mice, 220
Gonadotrophins
potency of mule deer pituitaries, 206
antilutenizing potency of derivatives of progesterone, 212
Growth hormone
effect on blood sugar in obese-hyperglycemic mice, 1
control of glycogen in heart and other tissues of rat, 83
influence on insulin sensitivity in rats, 193
action on bone marrow esterase, 352
selective effects of growth hormone on rats fed a diet low in tryptophan, 701
a comparison with insulin administration, 797

Hypophyses
effect of pancreatectomy in dogs on cytology of, 79
effect of removal on coenzyme content of rat liver, 280
control of renal tubular transport of p-aminohippurate, 399
effect of transecting stalk in laying hens, 694
steroid induced adrenal-pituitary hypofunction, 777
functional corpora lutea maintained by autografts of rat hypophysis, 786
Hypothalamus
endocrine influence on antidiuretic activity of rat hypothalamic-neurohypophyseal system, 461
evidence for separate centers for control of pituitary secretion of TSH and ACTH, 665

Insulin
effect on blood sugar in normal and obese mice, 220
time-response effect of insulin upon the level of plasma amino acids in the eviscerated rat, 388
Iodine
metabolism by mammary tissue *in vitro*, 51

Mammary gland
metabolism of I^{131} by surviving slices of, 51
Melanophore expanding hormone
quantitative method for measuring, 33

Neurohypophysis
distribution of oxytocin and vasopressin (ADH) in neurohypophysis of camel, 277
endocrine influences on antidiuretic activity of rat hypothalamic-neurohypophyseal system, 461
ablation effect in fowl, 477
effect of transecting stalk in laying hens, 694

Pancreas
studies on blood glucose and islet tissue of lizards, 114
liver glycogen reserves in experimental diabetic ketosis, 232
alloxan diabetes in the hamster, 305

Placenta
interconversion of estrone and estradiol in the perfused human placenta, 376
isolation of an unknown substance and 6-ketoprogesterone from perfusates of human placenta, 387

Relaxin
variation in sensitivity of ovariectomized guinea pigs to, 659

Reproductive system
effect of steroid hormones in pullets on development of, 262
effect of 17 alpha-hydroxy-11-desoxycorticosterone on estrogen stimulated chick oviduct growth, 282

Sexual behavior
in castrated-adrenalectomized hamsters maintained on DCA, 293

Testes
castration and growth of muscles in rats, 226
effect of castration on weight and composition of the muscles of the guinea pig, 315
effect on the 3β-OL dehydrogenase activity, as influenced by chorionic gonadotropin, 435

Thyroid gland
effect of potassium thiocyanate on fetal retention of radioiodine, 8
accumulation of rhenium, 13
mechanism of antithyroid action of iodide ion, 23
extra-thyroidal iodide metabolism in rat, 68
action of perchlorate on concentration gradients for radioiodide in unblocked thyroid glands of rats, 95
effect of casein on iodide metabolism, 109
nature of I^{131} compounds in thyroid vein after injection of iodide I^{131}, 121
formation of I^{131} monoiodotyrosine from I^{131} iodide by isolated particulate fractions of non-thyroidal tissues, 132
action on brain function and brain electrolyte distribution in rats, 181
a method for iodide balance studies in animals on low iodide diets, 235
iodine metabolism of the thyroid of androgen-treated rats, 279
effect in rats of n-methyl-phenyl-ethyl barbituric acid on function of, 347
iodine metabolism in surviving human and canine thyroid slices, 381, 501
radioiodide in thyroid and other organs of rats treated with perchlorate, 634
role in promoting bleeding in hypophysectomized baboons, 753

Thyrotropin
Bioassay of, 420
effect on iodide collecting mechanism of thyroid tissue slices, 531
zone electrophoresis in preparation of serum and pituitary extracts for bioassay of, 557
evidence for a separate hypothalamic center controlling pituitary secretion of, 665
secretion as altered by food intake during treatment with diethylstilbestrol, 681
thyroid uptake of radiophosphorus as an improved bioassay method for, 767

Uterus
electrical activity in rat, 139

Water metabolism
endocrine factors in water metabolism of the desert mammal *G. gerbillus*, 243
